

**Theme-Based Project: Biography PPT Presentation**

In Unit 3 of Our World 5, the 5A English class learned new vocabulary for musical instruments and musical genres. The students worked hard reading, writing and speaking about their musical preferences and experiences. At the end of Unit 3, the students spent time researching a singer/songwriter of their choice. They then created a PowerPoint presentation about the lives of the artist they chose. They each presented to their classmates a wonderful presentation which taught the class about a new artist. The students practiced their reading, writing and speaking skills during this project using vocabulary from the unit.

**Unit Theme: Music**

**Unit Grammar: Present Perfect**

**Grammar Practice: Past Participle Bingo**

Along with learning new vocabulary about music, the students were also learning how to use the present perfect tense correctly. While practicing the grammar in each language domain, they also had to memorize their past participles for each irregular verb. For a fun way to review and wrap up the present perfect tense, we played BINGO with the verbs. The students had a lot of fun while reviewing the grammar and the irregular verbs.
